Strange Disease

Prozzak

A little sexual frustration
Combined with lack of motivation
And a loss of concentration
I got a strange disease
I can't concentrate on work
My libido's gone berserk
Now, I'm sweating through my shirt
I got a strange disease
Two weeks ago
You said you'd never leave me
And here I am alone
And in this world of reckless happenstance
Why do good things have to go away?
And leave you with nothing
Ya, you left me with nothing
Aah and a strange disease
Hyper emotional sensations
Sent via television stations
And unaffected by locations
I got a strange disease
I can't seem to get to sleep
I don't want nothing to eat
Walking up and down your street
I got a strange disease
Why did you have to put
So much pressure on me?
You pushed my heart away
I didn't mean to scare you little one
Is there nothing I can say?
Don't leave me with nothing
Ya, you left me with nothing
Aah and a strange disease
Now, I'm standing in the rain
Water soaking through my brain
Every droplet speaks your name
And it's driving me insane
I don't want to go to work
My libido's gone berserk
I don't want nothing to eat

Walking up and down your street
But only two weeks ago
You said you'd never leave me
Now, here I am alone
And in this world of reckless happenstance
Why do good things have to go away?
And leave you with nothing
Ya, you left me with nothing
Aah and a strange disease
