

Too Many Hopes for July

Blaudzun

Have all on the coped stones
First I have to find the cutter way
Outside the dream don't fall the midnight
All I really want is stay
Drive me enough deeper
Call me always on the rise of sun
Too many hopes here for me
To keep you wanna say
But rather get you on road
When they take you to the great
Tell me I have to dig here
Call me when the sun is up

And now we keep on recover
While we wait for falling of
Too many hope for July

And now we keep on road falling
Let it away we won't bother
Too many hopes for July

And now we keep on recover
While we wait for the sun
Too many hopes for July

So look at me is how it goes
Pull in your black it's for my eyes
She's broking on the weekends
But carry across the sky
Drown me out my demons
Waiting for mercy

And now we keep on recover
While we wait for another
Too many hopes for July

And now we keep on recover
Let it wait we won't bother
Too many hopes for July

And now we keep on recover
While we wait for the summer
To sell our hearts tonight
To many hopes for July

And now we keep on recover
While we wait for the summer
To many hopes for July

And now we keep on recover
While we wait for the summer
To sell our hearts tonight
To many hopes for July
