

One Night

Bad Company

I ain't got no money
But I sure got style
And if you got the time, girl
I'll show you how to smile Come on make your mind up
Ooh baby, take a chance
Before this night is over
I'll show you how to dance, yeah You like the danger, it's in your eyes
I can see it there
Throw your dance with a stranger
Kiss him goodbye, yeah, bye bye baby One night ain't no love affair
But I won't ask no more from you
One night with you anywhere
Heaven knows what we can do So sophisticated
I like the way you dress
The way you move your body
Ooh, baby I'm obsessed I don't want no lifetime
I just want tonight
Come on, take a chance, girl
I know you know it's right, yeah I've got this feeling, it's feelin' so strong
w When I first saw you
You've got me reelin'
Don't prove me wrong, oh come on, baby One night ain't no love affair
But I won't ask no more from you
One night with you anywhere
Heaven knows what we can do Yeah, you like the danger, it's in your eyes
I can see it, baby
You took a chance with a stranger
Kiss him goodbye, bye bye baby One night ain't no love affair
But I won't ask no more from you
One night with you anywhere
Heaven knows what we can do
