

# Don't Forget About Us (remix)

[Mariah Carey](#)

(Don't forget about us)  
Don't, baby, don't, baby, don't let it go  
No, baby, no, baby, no, baby, no  
(Don't forget about us)  
Don't, baby, don't, baby, don't let it go  
My baby boy  
Just let it die with no goodbyes  
Details don't matter, we both paid the price  
Tears in my eyes, you know sometimes  
It'd be like that, baby, yeah  
Now every time I see you  
I pretend I'm fine  
When I wanna reach out to you  
But I turn and I walk and I let it ride  
Baby, I must confess  
We were bigger than anything  
Remember us at our best  
And don't forget about  
Late nights, playin' in the dark  
And wakin' up inside my arms  
Boy, you'll always be in my heart and  
I can see it in your eyes, you still want it  
So don't forget about us  
I'm just speaking from experience  
Nothing can compare to your first true love  
So I hope this will remind you  
When it's for real, it's forever  
So don't forget about us  
Oh, they say that you're in a new relationship  
But we both know, nothing comes close to  
What we had, it perseveres  
That we both can't forget it, how good we used to get it  
There's only one me and you  
And how we used to shine  
No matter what you go through  
We are one, that's a fact  
That you can't deny  
So, baby, we just can't let  
The fire pass us by

Forever we'd both regret  
So don't forget about  
Late nights, playin' in the dark  
And wakin' up inside my arms  
Boy, you'll always be in my heart and  
I can see it in your eyes, you still want it  
So don't forget about us  
I'm just speaking from experience  
Nothing can compare to your first true love  
So I hope this will remind you  
When it's for real, it's forever  
So don't forget about us  
And if she's got your head all messed up now  
That's the trickery  
She'll wanna have like you know how this lovin' used to be  
I bet she can't do like me, she'll never be MC  
Baby, don't you, don't you forget about us  
Late nights, playin' in the dark  
And wakin' up inside my arms  
Boy, you'll always be in my heart and  
I can see it in your eyes, you still want it  
So don't forget about us  
I'm just speaking from experience  
Nothing can compare to your first true love  
So I hope this will remind you  
When it's for real, it's forever  
So don't forget about us  
Late nights, playin' in the dark  
And wakin' up inside my arms  
Boy, you'll always be in my heart and  
I can see it in your eyes, you still want it  
So don't forget about us  
I'm just speaking from experience  
Nothing can compare to your first true love  
So I hope this will remind you  
When it's for real, it's forever  
So don't forget about us  
Don't, baby, don't, baby, don't let it go  
No, baby, no, baby, no, baby no  
Don't, baby, don't, baby, don't let it go  
When it's for real, it's forever  
So don't forget about us
