

Heaven Can Wait

Gregorian

You kiss me in the rain again and again now
Your touch is driving me insane, come my way
I'm riding on top of your waves, I'm head over heels now
Knowing you and me one day will surely find a way
No compromising and all I see are brighter skies
Now I got you by my side
Heaven can wait now you are by my side
Heaven can wait now you are by my side
Two years on and still I'm head over heels now
Ups and downs in everyday still you come my way
I'm lying by your side, another winter is here now
And I got summer on my mind and together we can find
No compromising and all I see are brighter skies
Now I got you by my side

Heaven can wait now you are by my side
Heaven can wait now you are by my side
Heaven can wait now you are by my side
Heaven can wait now you are by my side
Always by my side, heaven can wait now yeah
Always by my side, heaven can wait now yeah
Heaven can wait now yeah
Heaven can wait now yeah
I've got summer on my mind
Heaven can wait now yeah
Heaven can wait now you are by my side
Heaven can wait now you are by my side
Heaven can wait now you are by my side
Heaven can wait now you are by my side
