Wasted

Stabbing Westward

I've spent my life running from the emptiness that haunts me
And I've spent my whole life trying to fuck the loneliness away
And I die inside when I think of all the people that I've damaged
I'm tired I'm so tired and there's no one else except myself to blame(chorus)
My life's been wasted everything is gone
My life's been wasted and I am all alone
My life's been wasted there is no one else
My life's been wasted it's time I face myselfI've spent my life trapped inside a cycle of self-destruction
And I've spent my whole life trying to numb the pain inside my soul
Furious I cry when I realized I fought this war with no one
Now I'm tired I'm so fucking tired but I'll find a way to keep my faith alive(chorus)When I reach the end will anything I've done mean anything
Now when I reach the end will anything I've done mean anything
Will anything I've done mean anything(x2)My life's been wasted everything is gone
My life's been wasted now I am all alone
My life's been wasted there is no one else
My life's been wastedMy life's been wasted everything is gone
My life's been wasted and I am all alone
My life's been wasted there is simply no one left
My life's been wasted now it's time I face myself
