Subdued Violence

Rudimentary Peni

Let's find someone we can blame it all on
Someone so stupid they can't see
Pull out each hair one by one
By three sick old frail worm, claustraphobia
Suck suck suck, suck the puss holes dry
Hate noise, hate you, agrophobia
Punch kapow now, how bang down the door
Mediocre idiocy, harlequin acting girlDreams could be the root of a passable growth
Treated as a child, how are children treated
Broken arms, broken brains it's not a bit funny
Minor dramas, minor life, closed mind
?(Case history, pretension mystery
Don't mention it pathetic past
Future forever future for never white
Feather apprenticed weather seller
Fight for light and you'll get dark)?.
