

# Love's Gonna Happen to Me

Wynn Stewart

Well every time I see you I get a funny feeling like  
Love's gonna happen to me  
I think that I found it I can't get around it  
Love's gonna happen to me Love's gonna happen to me love's gonna happen to me  
Every time I see you something cause me near you  
Love's gonna happen to me Every time I'm near you and you smile so sweet and I know  
Love's gonna happen to me  
Some happy day you gonna be my own  
Love's gonna happen to me Yes love's gonna happen to me  
I guess love's gonna happen to me  
Every time I see you something cause me near you  
Love's gonna happen to me Love's gonna happen to me  
love's gonna happen to me  
Love's gonna happen to me  
Love's gonna happen to me Every time I see you I get a funny feeling like  
Love's gonna happen to me  
I think that I found it I can't get around it  
Love's gonna happen to me Well love's gonna happen to me love's gonna happen to me  
Every time I see you something cause me near you  
Love's gonna happen to me  
Yes love's gonna happen to me  
I guess love's gonna happen to me  
Every time I see you something cause me near you  
Love's gonna happen to me
