

# Come to Terms

TORRES

These lives are so contrived  
And out of focus  
But if I can derive some happiness from this  
Then I'll have made it out alive 'Cause people always change  
But ain't always changing for the better  
And just because the two of us  
Will both grow old in time  
Don't mean we should grow old together  
So I'll be sure to turn my back  
On everything you said you'd do  
I'm gonna come to terms  
Before I have to  
Been keeping all my time In my back pocket  
Taking from it only what I need to be  
Whoever I'm supposed to be  
But when I look at you I get so lonely  
I used to just adore you  
But now you bore me 'Cause people always change  
But ain't always changing for the better  
And just because the two of us  
Will both grow old in time  
Don't mean we should grow old together  
So I'll be sure to turn my back  
On everything you said you'd do  
I'm gonna come to terms  
Before I have to
