

Everything To Me

Brooke Hogan

You wanna go and as you open up the door
You change your mind, I'm not something to leave behind
You'll never know, all these things I feel inside
I wanna show you there's nothing out there to find Oh baby I, wanna make you see
There's nothing more to fear
'Cause everything's right here I'm everything you want, I'm everything you need
And every little part of you, is a part of me
I'm everything you know, I'm everywhere you go
And I hope that you see, that you're everything to me, oh yeah
Everything to me, yeah Whisper to me, I hang on every word you say
Don't tell me no, as you turn and walk away
Don't shut me out, I'm much stronger than you know
But you're on your way, you'll be back with me someday Oh baby I, I wanna make you see
There's nothing more to fear
'Cause everything's right here I'm everything you want, I'm everything you need
And every little part of you, is a part of me
I'm everything you know, I'm everywhere you go
And I hope that you see, that you're everything to me, oh yeah I understand your confusion, in denial,
disillusioned
But I won't wait too long and I just might move on
I'm buried by your indecision digging for the life I'm missing
Just look inside and see, I hope there's room for me Oh baby I, I wanna make you see
There's nothing more to fear
'Cause everything's right here I'm everything you want, I'm everything you need
(Everything you need)
And every little part of you, is a part of me
I'm everything you know, I'm everywhere you go
(And I hope that you see)
That you're everything to me I'm everything you want, I'm everything you need
(Everything you need)
And every little part of you, is a part of me
I'm everything you know, I'm everywhere you go
(And I hope that you see)
That you're everything to me I'm everything you want, I'm everything you need
(Everything you need)
And every little part of you, is a part of me
I'm everything you know, I'm everywhere you go
(And I hope that you see)
That you're everything to me
