Iron Icon 9

Helheim

The symbol of sovereighnity
Everlasting malice
Taste our supremacy
Feel the final frontBrand this mark
Remember its power
Once seduced there's no escape
The olden Law has taken new formsIt's the icon of everything
The symbol of pagan unity
None can change our view
Withdrawn from the common waysThe beast of a new age
Crushing everything in their way
Branded by the icon
The nine stages that makes us wholeSpew out your hate
Mock thy new enemy
Rise up from your comfort and lust
for something moreWho dares wins I way
And so it shall be done
Harvest their withering words
And throw it back ten times folded[MUSIC: V'gandr]
