

Phobic

Plumb

I watched you sit alone
I watched you cry your eyes out
Now tell me what you've done Is it so bad that
I would shut you out
And leave you here alone Yes, I saw what you did
I was right there with you
I won't let you sink
No, I forgive you Phobic
Don't be
Grace needs a little more freedom
Phobic
Don't be
Love needs room to breathe I have watched you grow
And I've stood in your shadow
I've never walked away I hung the stars and
I hold your heart
So, don't ever be afraid Yes, I know when you breathe
And I feel when you need
I won't let you sink
No, I forgive you Phobic
Don't be
Grace needs a little more freedom
Phobic
Don't be
Love needs room to breathe You can be healed
You can be free
You can know peace
Never be afraid again Phobic
Don't be
Grace needs a little more freedom
Phobic
Don't be
Love needs room to breathe Never be afraid
Never be afraid
He's here
