

Jealousy

Stereophonics

Jealousy, my devil
Jealousy, my hell
Jealousy, insomnia
Jealousy, sleep well
Innocence, is heaven
Innocence, is hell
Innocence, in everyone
Innocence, is dead
Four and twenty black boys singing in the street
Getting high, most things, wishing they were free
My angel, my devil, my hell, my heaven,
My storm, my calm, my photograph in my palm
Four and twenty white boys singing in the street
Getting high, most things, wishing they were free
I been your bridge, yeah
I been your boy
I been your teacher
I been your joy
I been your drunk
I been your home
I been your rock
You been my stone
Four and twenty poor boys singing in the street
Getting high, most things, wishing they were free
