

# Power of My Love

Elvis Presley

Oh break it, burn it, drag it all around  
Twist it, turn it, you can't tear it down  
Cause every minute, every hour you'll be shaken  
By the strength and mighty power of my loveCrush it, kick it, you can never win  
I know baby you can't lick it  
I'll make you give in  
Every minute, every hour you'll be shaken  
By the strength and mighty power of my loveBaby I want you, you'll never get away  
My love will haunt you yes haunt you night and day  
Touch it, pound it, what good does it do  
There's just no stoppin' the way I feel for you  
Cause' every minute, every hour you'll be shaken  
By the strength and mighty power of my loveYeh, yeh, baby I want you, you'll never get away  
My love will haunt you yes haunt you night and day  
Touch it, pound it, what good does it do  
There's just no stoppin' the way I feel for you  
Cause every minute, every hour you'll be shaken  
By the strength and mighty power of my loveI said every minute, every hour you'll be shaken  
By the strength and mighty power of my loveEvery minute, every hour you'll be shaken  
By the strength and mighty power of my love
