

# No Fat Burger

## Descendents

Can't have no more juicy burgers  
Can't have no more greasy fries  
Doctor took my lipid profile  
He told me I'm barely alive No more fat  
No more fat  
No more chicken pot pies, no more chorizo  
I can't have that Got this problem from my father  
Grampa died at 45  
Heart attack and a triple bypass  
Future's looking very bright  
No more fat  
No more fat  
No more apple fritters, no more ice cream  
I can't have that  
No more fat  
No more fat  
I like food, but all the food that tastes good...  
I can't have that
