

# If You Don't Know By Now

## Eagle-eye Cherry

We've talked it out for hours  
And you're still havin' doubts  
Shouldn't love be somethin'  
You don't have to figure out How can I ever know  
Just where we are?  
If you can't tell me  
What is in your heart If you don't know by now  
How could tomorrow  
Ever change the way that you feel?  
If you don't know by now  
I guess, you never will Never had to question  
That I loved you I just knew  
Guess I took for granted  
That you loved me too You say you don't know  
If your love is real  
You need some time  
To find out what you feel If you don't know by now  
How could tomorrow  
Ever change the way that you feel?  
If you don't know by now  
I guess, you never will There are just some things  
Forever cannot do  
Like make you love me  
The way that I love you If you don't know by now  
How could tomorrow  
Ever change the way that you feel?  
If you don't know by now  
I guess, you never will I guess, you never will
