

Lady Temptress

Tiamat

Lady Temptress
Lucifer's daughter
Born in my flesh
Arise and be revealed Unknown for corrupted minds
She dwells in malignancy
In the distant crypts of your inner self
Where Man of God doesn't seek Please don't leave me, Lady Temptress
Revel in my body, Lady Temptress Lady Temptress
Meet me in my dreams
Trace my dark sides
In the depth of my subconscious Open the door
To the slumbering sinner
Rule my evil thoughts
And let them all out Lady Temptress
You are the blood of Man
The remedy to hypocrisy
Please stay alive You keep my desires unlocked
And my desires in you
The lady of temptation
Hails the human nature Please don't leave me, Lady Temptress
Revel in my body, Lady Temptress I beg on my knees
Make love to me one more time
