

# How You Like It (lights On/lights Off)

## No Question

With the lights on or the lights off  
How you like your lovin', in the light or in the dark?  
With the lights on or the lights off  
How you like your lovin'?

Do you like it rough or like it soft?  
When the lights are bright, there is no mystery  
I'm looking you in your eyes, while you're on top of me  
There are no secrets here, I can see everything  
Each way your body turns, you can see the joy it brings  
We're making love eye to eye, don't want to even blink  
Don't want to miss nothing, our hearts in total sync  
You watch me in submission, I finally submit  
Just tell me what you want and I will commit

With the lights on or the lights off  
How you like your lovin', in the light or in the dark?  
With the lights on or the lights off  
How you like your lovin'?

Do you like it rough or like it soft?  
When the lights are low, I feel this chemistry  
I feel your every move and feel your fantasies  
With every kiss you give, I taste what's on your mind  
You're looking for the treasure, just seek and you shall find  
We're in a universe, that we can call our own  
The moon and stars around us, in this erotic zone  
I sense you're sweating sexy, queen of my throne  
Which way you want it baby, with the lights off or on?

With the lights on or the lights off  
How you like your lovin', in the light or in the dark?  
With the lights on or the lights off  
How you like your lovin'?

Do you like it rough or like it soft?  
I like to love you when the rain is coming down  
Dripping wet on top of us  
Thunder roll and your feeling my touch  
It doesn't matter long as I hear the sound  
Slip-n-slide nature's fly tell me  
What you want so you can be satisfied

With the lights on or the lights off  
How you like your lovin', in the light or in the dark?

With the lights on or the lights off  
How you like your lovin'?  
Do you like it rough or like it soft?  
With the lights on or the lights off  
How you like your lovin', in the light or in the dark?  
With the lights on or the lights off  
How you like your lovin'?  
Do you like it rough or like it soft?  
With the lights on or the lights off  
How you like your lovin', in the light or in the dark?  
With the lights on or the lights off  
How you like your lovin'?  
Do you like it rough or like it soft?  
With the lights on or the lights off  
How you like your lovin', in the light or in the dark?  
With the lights on or the lights off  
How you like your lovin' in the light or in the dark?  
With the lights on, or the lights off  
How you like your lovin' in the light or in the dark?  
With the lights on or the lights off
