

# Firm All Stars

## The Firm

Ayo, you see that a major, tellin' my flavor  
All types of paper, I'm doin' you a favor  
So blaze the trees, come on baby, please  
Yo to lay with these girls, pay the fees  
'Cause I stay in these coop rabie bees Jitty to the fifty, to the ACG's and when I'm lazy B  
Let the AC breeze, explain to my dames how the gamin' be  
So what you trippin' about in the club, I be kickin' em' out  
I get 'em home then I'm twistin' them out  
If I still keep it real I be friskin' them out, with my dick in they mouth Then I'm kickin' them out 'cause you  
miss the quote  
'Cause even if this kid was broke on you, I wouldn't trick to know  
Have me high at first like I sniff some coke  
But now you gotta go don't forget your coat We are the firm all stars  
Fuckin' your bitch, we don't care who you are  
We don't need no introduction, our music steady bumpin'  
From the crib to the club to your cars, come fuck with us If you know about us throw your hands in the air  
From Texas to New York to Montclair  
This be the knock from Flat bush to Little Rock  
Even New Orleans be 'bout it, 'bout it, it's hot I gets 7:30 for the door daddy  
Ain't know thing, y'all know about the rings  
Here you vibe and you balls with the big cat  
Anything you tryin' ta bring, been there done that  
See the paper stack, I'm not a hater dog  
Y'all still crusin' lands, I'm navigatin' dog Brooklyn tone, baby girl, flawsed night and left  
And baget stones in a James Bond chrome  
See this pretty face, but you wanna stick it  
If it's broke nigga we can let Tido fix it  
I can't stop, I won't stop Everything hot, first week out hit the top  
Pretty Boy relentless, Cop the coop, that's expensive  
For instance we rollin' in fleets in ten to sixes  
We smoke phippers with a dime chick pullin' all nighters P be Mr. Macaroni, the world slick lies and pretty Tony  
If you never new, know you, know me, that's why, they wanna blow me  
We eat caviar, shine like a movie star  
Firm click real thick, Nas tell em' who we are We are the firm all stars  
Fuckin' your bitch, we don't care who you are  
We don't need no introduction, our music steady bumpin'  
From the crib to the club to your cars, come fuck with us
