

# Fuck You All

## Ektomorf

There is the motherfucker look at me

He has got a big car and money

He is sure that he can be anything

He want everyone and everything

There is the jerk off look at him

Sitting the whole day in the fucked up office

His name is Boss he wanna fuck me up

I have a message to them

Fuck you all

There is the motherfucker look at me

He thinks that he is so important

But he is a loser, he is just a slave

And he wanna tell me how I have to live

There is the jerk off look at him

He wanna stand above everyone

I've got a message to them

Fuck you all

I'm fed up with them I don't want more

I'm fed up with them, fuck you all

Fuck the society, fuck the system

I destroy them all

I destroy them

Poser motherfuckers, fake wannabes

I can't stand anymore all this shit

They piss me off, they make me mad

I've got a message to them

Fuck you all
