

# Stay True (Radio Edit)

**COMIS**

When your love is on my mind  
I think about you all the time  
And at the way you look into my eyesFrom every little thing that you do  
I search your love and I feel good  
Because for your love I'd stay trueYou're on my mind  
For all the time  
And my love flies  
Into my eyes
