

# Summer (Feat. Someone)

OM

I'm stayin' out late but it don't feel right  
I grab her hair thinkin' 'bout your eyes  
Think it's tangled, but we ain't that tight  
Passing time, your attention is what's on my mind  
I wonder, "Should I feel ashamed?"  
And I wonder if we act the same  
These songs aren't over, can't escape  
That's why...  
She my crush for the summer  
She got me feelin' things I don't wanna  
Oh, she my crush for the summer  
She is just someone I use to get over you  
She my crush for the summer  
She got me feelin' things I don't wanna  
Oh, she my crush for the summer  
She is just someone I use to get over you  
She my crush for the summer  
Blowin' up my phone, you don't wanna lose  
You're switching lanes, got me so confused  
You sunk this ship, you got me bruised  
This shit can't be news to you  
I wonder, "Do you feel ashamed  
Of breakin' hearts for your own game?"  
And I hope no one is in your game  
That's why...  
She my crush for the summer  
She got me feelin' things I don't wanna  
Oh, she my crush for the summer  
She is just someone I use to get over you  
She my crush for the summer  
She got me feelin' things I don't wanna  
Oh, she my crush for the summer  
She is just someone I use to get over you  
She my crush for the summer  
I'm so tired of you bein' everything  
Are you enjoyin', enjoyin', are you?  
Your issues stops good things from happening  
Are you survivin'?  
She my crush for the summer

She got me feelin' things I don't wanna  
Oh, she my crush for the summer  
She is just someone I use to get over you  
She my crush for the summer  
Are you enjoyin', enjoyin', are you?  
Are you survivin'?  
She my crush for the summer  
Are you enjoyin', enjoyin', are you?  
Are you survivin'?  
She my crush for the summer
