Intimidation

Rottrevore

Can't you see there's fear on my face
But I won't run from you
That's right these are all my friends
Now what are you gonna do
Go ahead and try to push us around
And we'll beat you, black & blue
Because we don't take any shit
Especially from the likes of you, yeah youIntimidation is your game
Well 2 can also play
From here on in the battle line's drawn
It's you who's gonna pay
You think you're right you think we're wrong?
Well time will surely tell
We'll never give in we'll keep on fighting
Gonna shove you back down your well, your wellIntimidation is you game
But the Bruisers will surely put you to shame
