Gather 'round

Elliott Yamin

Now gather around everybody
And listen to this brand new groove
It's guaranteed, guaranteed to make your body move!
Now we don't need no radio station
And I don't want no standing ovation
I know you've been [?] and you waited
For me to get down, oh
[Chorus:]We'll get the whole damn town in this party
Everybody's getting in for free
You don't need no money
Open bar, and you can be what you wanna be!
I said grab somebody, anybody
Get together, clap your hands and be
Let's do it like these are the best days of our lives
So, gather around like it's no tomorrow
Like you ain't got nothing that means
And bring your friends and family
You better make sure that the time is chosen
Now we ain't got no time for conversation
And it won't be no crazy altercation
Only electric relaxation
For all around, all!
[Chorus:]We'll get the whole damn town in this party
Everybody's getting in for free
You don't need no money

Open bar, and you can be what you wanna be!
I said grab somebody, anybody
Get together, clap your hands and be
Let's do it like these are the best days of our lives
Leave your worries behind, and have a good time!
Come on and check your coat, hat at the door
This is your time to let it go!
Leave your worries behind, and have a good time!
Funk, soul, and rock'n roll,
So drop your hands and everybody gather around!
Oh, oh, oh
Oh, oh, oh
[Chorus:]We'll get the whole damn town in this party

Everybody's getting in for free
You don't need no money
Open bar, and you can be what wanna be!
I say grab somebody, anybody
Get together with, clap your hands and be
Let's do it like these are the best days of our lives
(Get your friends together)
Come on, get together, just clap your hands down!
(Get your friends together)
Come on, get together, just clap your hands down!
(Get your friends together)
Enough, we have the good time going on!
(Get your friends together)
Come on, get together, just clap your hands down!
