

One of These Days

Wayne Mills Band

Terry Adams rode the same bus as me
We mapped out our lives on Bluebird Three
He was gonna be a football star in spite of his family
He was only 19 years old when he died
In a head-on down at Shoal Creek

Jay Cobb was the best I'd ever saw
He could outrun the wind, you outta'd seen him throw a ball
But he was struck down by an unknown disease
My friends lost their lives but I remember their dreams

CHORUS

One of these days I'll fly to the moon
One of these days I'll have nothing to prove
One of these days I'll get out of this place
And I'll be somebody one of these days
One of these days

It's been a long time since I lost my friends
And I know I don't think enough of them
I'm just trying to get through living like I've got nothin' to lose
Sometimes I feel 'em lookin' down on me
And I guess maybe it makes me feel a little bit guilty
And I wonder if I'll ever change my ways
Well, I'm sure I will

CHORUS

One of these days I'll fly to the moon
One of these days I'll have nothing to prove
One of these days I'll get out of this place
And I'll be somebody one of these days
One of these days

One of these days I'll fly to the moon
One of these days I'll have nothing to prove
One of these days I'll get out of this place
Yeah, and I'm gonna be somebody one of these days
One of these days
One of these days
One of these days
