

Keep It Clean

[John Hasbrouck](#)

Keep it clean
Does it make you happy to ignore me on streets?
I guess by now you think I'm weak
I wish you could have said something before now
I wouldn't share a bag of chips with you
In my opinion you don't have a clue
I'm being cruel I'm being cruel
I don't want to be part of your scene
I'll stick with him and keep my nose clean
You're the one pretending to be licking stamps
All alone in a room following lines on maps
It's clear you don't want me here
How about I send you a book on nutrition

You can stop spoon-feeding me non-fiction
Just for a while, I will fake a smile
Why did you say she was a friend of mine?
I thought it was me you couldn't stand
I'm confused
I will win you will lose
You've taken to phoning my house when you're drunk
Confessing all your love
I wish you could have said so before now
I don't want to be part of your scene
I'll stick with him and keep my nose clean
