

# Roses On White Lace

[Alice Cooper](#)

I saw you in your wedding gown the prettiest dress  
I came into the room that night and made such a mess  
In my own way I lovingly kiss the bride  
With your ring in your hand your eyes and your mouth open wide  
In my eyes blood drops look like roses on  
white lace  
They won't wash away  
In my mind they're roses on white lace straight from the heart  
So dead upon the bed  
You hurt me in the deepest way, I'm crippled inside  
I took your evil skin away, it's all cut and dried  
I saw you tonight and carefully took your hand  
With some smears on my cheeks I knew that you would understand  
In my eyes blood drops look like roses on  
white lace  
They won't wash away  
In my mind they're roses on white lace straight from the heart  
So dead upon the bed, still searching for your head  
They're never gonna find your face, it's hidden away  
I found a very special place where you used to play  
In my own way, I lovingly kiss the bride  
With your ring in your hand your eyes and your mouth open wide  
In my eyes blood drops look like roses on  
white lace  
They won't wash away  
In my mind they're roses on white lace straight from the heart  
Blood drops look like roses on white lace  
Crimson and sweet, stained on the sheet  
Roses on white lace  
Pretty in red, dripping and wet  
Roses on white lace  
Spilled on the walls, dark in the hall  
Roses on white lace, roses on white lace, roses on white lace
