Gonowhere

Brendan Benson

Don't waste your time
On people going nowhere
Make up your own mind
And you're already halfway thereHesitate
Or give a second thought
And you'll be late
Forget what you've been taughtYou could have it nice or complicated
You could pay full price or you could take it
You could improvise and be creative
You've got a lot to give and you've got a life to liveDon't put it off
Another minute longer
Don't go all soft
You've got to be strongerDon't speculate
'Cause no one ever knows
It's up to fate
And you can't predict the way it goesYou could have it nice or complicated
You could pay full price or you could take it
You could improvise and be creative
You've got a lot to give, you've got a life to liveYou don't do anything
You won't do anything
You won't say anything that isn't kind
Anything that isn't niceDon't waste your time
On people going nowhere
Don't wait in line
If you expect to get somewhereSave your breath
Don't wanna hear your stance
It's just a guess
And you only have this chanceYou could have it nice or complicated
You could pay full price or you could take it
You could improvise and be creative
You could roll the dice or you could play dead
You could give advice or you could take itYou could have it all, you could have it all
You could have everything you love
Everything you love, everything you loveYou could have it all, you could have it all
You could have everything you love
Everything you love, everything you loveYou could have it all, you could have it all
You could have everything you love
Everything you love, everything you loveReach out and take it
You've got so much to give

And you've got a life to live
