

# Sweet November

SZA

Jesus called me collect last night  
It took all of me not to answer it  
Daddy warned me the perils of play  
Hard to deal God's standards  
Flying high and fearless baby

I've kissed death a thousand times before Remember me for who I was not who I am

I'll pray you'll never understand this

Sweet sweet sweet November

Remember me for who I was not who I am

I'll pray you'll never understand this

Sweet sweet sweet November Heard you fucking with Tommy again

Remember where that landed you last time

That nigga don't really love you girl

He just fucks you every night it's his past-time

Blind eye and the feel is dark and

You two might just do it raw tonight

Heaven help if he leave you girl

Hope you bought two new thongs this time Remember me for who I was not who I am

I'll pray you'll never understand this

Sweet sweet sweet November

Remember me for who I was not who I am

I'll pray you'll never understand this

Sweet sweet sweet November
