Manchild

Neneh Cherry

Okay, youre on your own, its late

Your girlfriend is on another date with the hero in your dream

Turn around, ask yourself

So, you think youre gonna win this time Manchild? Is it the pain of the drinking

Or the Sunday sinking feeling

The car never seems to work

When its late your girlfriends on a dateAnd the hero with her in your dream

In your sleep it seemed to like you

Turn around and ask yourself

Turn around ask yourselfManchild, will you ever win?

Manchild, look at the state youre inCould you go undercover

And sell your brand new lover

Could you be someone else for a night?

Maybe someone else will love youYou sell your soul for a tacky song

Like the one you hear on the radio

Turn around ask yourself

Turn around and ask yourselfManchild, will you ever win

Manchild, look at the state youre in

Manchild, he will make you cry

Manchild, ManchildFrom Monday down to Friday

Youre working on another mans car

Or is it in the factory?

It doesnt matter where you are Just turn around and ask yourself is this communication

Accentuate the positive and give some illustration

See Manchild, youre no one, you turn the microphone on

Control communication when Im kickin it and so on

To the point that I need, the air that I breatheInto an audience thats waiting and ecstatic to receive

For the meantime another mean rhyme, I keep on sayin it

I know what the time is the crowd will keep playing it

Through the speaker boxes louds my diagnosisCause I believe in miracles and words in heavy doses

Enough R E S P E and C T

Respect yourself express no stress the mike is easy

Just believe that all you need is the air that you breathe

Turn around ask yourselfManchild, will you ever win?

Manchild, look at the state youre in

Manchild, he will make you cry

Manchild, Manchild, Manchild

Hes the apple of your eyeOnce bitten twice shy, why dont you bite me again

Just take it in the right and go tell your friend

Are you ready for the words I turn the microphone on
A figure of speech to reach you at the back and so onThe style Im stimulating dance floors
Raise your body temperature now and
This demands for power in the amp you know lauds my diagnosis
Cause I believe in miracles and words in heavy doses
