## Totally Enormous Extinct Dinosaurs

Looking over your shoulder girl,  
Thinking you should have let me have it all.  
If you're coming around again  
Tell me how you'd feel cause I need to know I could be your love again  
If you just let me in.  
We don't have to work it out  
Cause I already know Looking over your shoulder girl,  
Thinking you should have let me have it all.  
If you're coming around again  
Tell me how you'd feel cause I need to know I could be your love again  
If you just let me in.  
We don't have to work it out  
Cause I already know Walking in my silver blues,  
Tracked the dust to you.  
I believed in something too.  
One more life with you
