

# Beating A Dead Horse

## Fenix Tx

I hate your, can't stand your, holding back  
But I want to say much more  
Every day gets worse  
Can't take this, we made this  
Been a long time running out of patience  
Watch those evil words  
Don't slow down, don't go down  
You should learn how to take it to the last round  
Think of circumstance  
Everyone's opinions matter more  
Than your words of wisdom  
Give it one more chance  
Now you know this is your life  
And it's so beautiful but pitiful, it's typical  
And now you know this is your life  
And it's so beautiful but pitiful, it's typical  
And it's all yours

It's not fair, you don't care  
Sometimes I wish we never made it here  
Don't mean what you say  
Use your voice make some noise, it's on the table  
So you better make the right choice  
Can't have it your way  
Now you know this is your life  
And it's so beautiful but pitiful, it's typical  
Now you know this is your life  
And it's so beautiful but pitiful, it's typical  
And it's all yours  
Now you know this is your life  
And it's so beautiful but pitiful, it's typical  
And now you know this is your life  
And it's so beautiful but pitiful, it's typical  
And it's all yours
