# Love Me For A Minute

## Cheap Trick

Some girls are so fine, sister sister, don't wanna change your mind
But some girls, run home so optimistic, about the love in their lives
See the girls on parade in high fashion magazines
And like some X rated movie oh, that fashion on the screen
Enough for everyone to see I know that she's not ever going back againSome girls you meet and then you kissed her
And she taste so sweet, this girl you find out, looks like her sister
Yeah, she's been comin' around, I see her backfield's in motion
She puts me under her spell, she's got some weird magic potion
Some concrete cloud over you, and I know it's burnin' HellI know that, she's not ever goin' back again
You see one, she's comin' with her new found friendOh, love me for a minute stay with me tonight
Take me in your arms and hold me
I'll show you what it's like on the other side of love
Take me in your arms and hold meYeah, yeah, yeah
Yeah, yeah, yeahAnd she's not ever goin' back again
You see one, she's comin' with her new found friendOh, love me for a minute stay with me tonight
Take me in your arms and hold me
I'll show you what it's like on the other side of love
Take me in your arms and hold meOh, love me for a minute stay with me tonight
Take me in your arms and hold me
I'll show you what it's like on the other side of love
Take me in your arms and hold meOh, bye, bye, bye, bye baby bye bye
I wanna be your lover, baby
Bye, bye, bye, bye baby bye bye
I love you like I own you, baby
