

# Midnight Dynamos

## Matchbox

You better beware and you better take care  
When we hit the town tonight -  
Kick away the blues  
no time to lose honey  
We can make it right  
Pretty little thing  
how your heart will sing  
Fill it up with pure delight  
In a supercharge from the gas garage  
Explode like dynamite We are the midnight dynamo's  
Only come alive when the old moon shows  
We are the midnight  
we are the midnight  
midnight dynamo's  
We are the midnight  
midnight dynamo's We are the midnight dynamo's  
So baby get a load of the fancy clothes  
We are the midnight dynamo's.  
We are the midnight  
midnight...Hurry on down pretty mama we're bound now  
And we're really set to go  
You've never been alive cut the fancy jive  
Don't you ever tell me no  
Come-ahome-away hear to the hot band play  
How they always steal the show  
Gonna wear you out make you jump and shout  
You won't have time to blow. We are the midnight dynamo's  
...Any place we cruisin'  
People know us one by one  
Ready packed for action fun  
For all and all for fun  
We are the midnight dynamo's
