Orelia Has Orchestra

(verse 1)

it just takes a second
for my world to come crumbling down
oh i'm sure in a distance
you can here that awful sound
oh i plead for an answer
plead for an answer from you
but if you give me an answer
it just makes no sense and what's the use

(chorus)

and just like that my life is broken
i can barley breath
and now i'm open for suggestions
at the end of the day life's a lesson
life is a lesson

(verse 2)

so why can't you see it from my point of view
and how many seconds in the hours of a day we lose
was it me or his feelings
me or his feelings that day
cause i just stood there in silence
watched while my world go away

(chorus)

and just like that my life is broken
i can barely breath
and now i'm opened for suggestions
at the end of the day life is a lesson
life is a lesson
life's a lesson
Hollow, oh

Feel it in the air that I breath come over me

Come over me

Now I'm broken

Oh yes I'm open for suggestions

Life's a lesson

Now I'm free cause life's a lesson

Oh why can I see it from his point of view?

And how many seconds in the hours will I make him lose?

Oh he said it was him or the answer

It was him or the answer that day
Well I kept shouting out the answer so what was the use anyway?
