Young Hearts

Strange Talk

Remember when we were so small
And all the times we used to fall
You never walk before you crawl before you crawl
We wake up and we go to school
Together breaking every rule
They say that we're just young and fools, young and foolsGrown ups what do they know
Living by the stories on the radio
Bad news on the tv
Headlines are made of realityWe're young hearts
Look at us go
All we really need is a stereo
We're young hearts
Look at us go
There's no stopping us we will carry onWe're young hearts
Look at us go
All we really need is a stereo
We're young hearts
Look at us go
There's no stopping us we will carry onRemember all the memories
And every little fantasy
Careless about destiny, destiny
We don't have the time to sleep
There's every possibility
We have got a history, historyGrown ups what do they know
Living by the stories on the radio
Bad news on the tv
Headlines are made of realityWe're young hearts
Look at us go
All we really need is a stereo
We're young hearts
Look at us go
There's no stopping us we will carry onCarry on carry on
Wide awake and we're dreaming
Carry on carry on carry on carry onWe're young hearts
Look at us go
All we really need is a stereo
We're young hearts
Look at us go
There's no stopping us we will carry onWe're young hearts

Look at us go
All we really need is a stereo
We're young hearts
Look at us go
There's no stopping us we will carry on
