I Can Make You Fall In Love Again

Bellefire

I, I can make you fall in love again
I can make you want me back again
Let me break it down
It's not that complicated
I know I've done you wrong
But I can make it right
I was lost and insecure
You might say careless with your heart
I made you cry, now let me try
Dry your tears oh, let me stay a little longer
I, I can make you fall in love again
I can make you want me back again and then
Maybe you'll forgive me, baby
I, I can make you give your heart again
Take another chance to trust me and then
I can make you fall in love again
Now don't be so defensive
To get this thing to work
I need to reach your heart
'Cause I gotta make you see
That you mean the world to me
That we're still okay, that we're far away
From falling down
So let me stay a little longer
I, I can make you fall in love again
I can make you want me back again and then
Maybe you'll forgive me, baby
I, I can make you give your heart again
Take another chance to trust me and then
I can make you fall in love again
You're lost and undecided
Only love can pull you through
Have a change of heart
Don't fight it any longer let it be a brand new start
I can make you fall in love again
I can make you want me back again
Baby, I, I can make you fall in love again
Want me back again
(Maybe you'll forgive me)

I can make you give your heart again
Trusting me again
Baby, I, I can make you fall in love again
I can make you want me back again and then
Maybe you'll forgive me, baby
I, I can make you give your heart again
Take another chance to trust me and then
I can make you fall in love again
I can make you fall in love again
I can make you want me back again
