Even Song

Comandatory

Red old eyes, now where you from
You catch me every day
Colours hide not even song
It's all been washed away

Sun stop going down
Come out again
Stop fading out
Awake again

Sun stop going down
Stop going down

Blues old face, you finally come around
And talking in your sleep
Buried secrets and fiery showdowns
Lost days in between

It's all the same
Let it go before it gets too late
Don't play our game

Sun stop going down
Come out again
Stop fading out
Awake again

Sun stop going down
Stop going down

Sun is going down
Come out again
Don't feel so proud
Get straight again

Sun stop going down
Stop going down

It's all the same
Let it go before it gets too late

Don't play our game

Sun stop going down
Come out again
Stop fading out
Awake again

Sun stop going down
Stop going down

Sun is going down
Come out again
Don't feel so proud
Get straight again

Sun stop going down
Stop going down

Sun stop going down
Come out again
Stop fading out
Awake again

Sun stop going down
Stop going down

Sun is going down
Come out again
Don't feel so proud
Get straight again

Sun stop going down
Stop going down
