A New Forever

Finger Eleven

Where were you when the days were long
We used to have the time but now it's gone
And so a new forever just goes on
Now you're somewhere in the atmosphere
Somehow everywhere but never here
The reason that I know it's true
Is 'cause the voices in my head sound just like you
I'm sure you're spirit's coming 'round
And I'm sure I'll be here to bring it downThey've been imaginary barriers all along
They've been imaginary barriers but they're real enoughBefore we knew the dusk from dawn
We never knew who's side the time was on
For all we knew forever wasn't so long
How many days have come and gone
I don't care to count for fear I'm wrongThey've been imaginary barriers all along
They've been imaginary barriers but they're real enough
They've been imaginary barriers all along
They've been imaginary barriers but they're real enough
