# Pistol In My Hand

## Flickerstick

Hey I'm a man and I'm feeling so into you
Hey I'm a man and I'm feeling so into you
Don't you lie, they may follow
I still can't see you smile
Hey I'm a man and I'm feeling so into you
Save yourself this emotion
They want to see you drown
Let it out, this emotion
Your sin is coming out
Said I'm into you
Ohhh...
So you lie right here
Fear not, I know
Take me for fear
Don't lose control
So don't you run
I may follow
I still can't see you smile
Tell yourself
Things they march on
They want to see you drown
Babe, don't run
Baby, don't run

'Cause I've got a gun
I've got a gun
I've got a gun
I've got a gun
I've got a gun
I've got a gun
I've got a gun
I've got a gun
I've got a pistol in my hand
I'm making my stand
While you all look around
I've got a pistol in my hand
I'm making my stand
While you all look around
I've got a pistol in my hand

I'm making my stand
While you all look around
I've got a pistol in my hand
I'm making my stand
While you all look around
I've got a pistol in my hand
I'm making my stand
While you all look around
I've got a pistol in my hand
I'm making my stand
While you all look around
