

# Pistol In My Hand

## Flickerstick

Hey I'm a man and I'm feeling so into you

Hey I'm a man and I'm feeling so into you

Don't you lie, they may follow

I still can't see you smile

Hey I'm a man and I'm feeling so into you

Save yourself this emotion

They want to see you drown

Let it out, this emotion

Your sin is coming out

Said I'm into you

Ohhh...

So you lie right here

Fear not, I know

Take me for fear

Don't lose control

So don't you run

I may follow

I still can't see you smile

Tell yourself

Things they march on

They want to see you drown

Babe, don't run

Baby, don't run

'Cause I've got a gun

I've got a gun

I've got a gun

I've got a gun

I've got a gun

I've got a gun

I've got a gun

I've got a gun

I've got a pistol in my hand

I'm making my stand

While you all look around

I've got a pistol in my hand

I'm making my stand

While you all look around

I've got a pistol in my hand

I'm making my stand  
While you all look around  
I've got a pistol in my hand  
I'm making my stand  
While you all look around  
I've got a pistol in my hand  
I'm making my stand  
While you all look around  
I've got a pistol in my hand  
I'm making my stand  
While you all look around
