

Beast

Despised Icon

Beast, destroy all that I explore
It's time, settle the score
I'll rightfully take what's mine
Beast, destroy all those that oppose
Rivals will decompose
I'll rightfully take what's mine
Curse this new world, thin the herd
A force to be reckoned with
You will plea for forgiveness
On your knees, now to beast
Assuming a higher role
Tremble as I speak, mankind is so weak, take control
Take control
Assuming a higher role
Tremble as I speak, mankind is so weak, take control
Assuming a higher role
Rise and conquer, onward!
Beast, destroy all that I explore
It's time, settle the score
I'll rightfully take what's mine
Beast, destroy all those that oppose
Rivals will decompose
I'll rightfully take what's mine
Curse this new world, thin the herd
A force to be reckoned with
You will plea for forgiveness
On your knees, now to beast
You no longer hold the crown
Icon is back!
On your knees, now to beast, icon is black
Icon is back!
Bloodshed is what I crave, open graves
No fear, face first, keep your conscience clear
Bloodshed is what I crave, misbehave
Beast, destroy all that I explore
It's time, settle the score
I'll rightfully take what's mine
Beast, destroy all those that oppose
Rivals will decompose
I'll rightfully take what's mine
