

Falling Out

Calvin Richardson

[SPOKEN:]

Everything changes

You know

Even the seasons

If things are going wrong

We need to sit down and talk

Cause if we don't face this soon[SING:]

[Chorus]

See the sun is going down (you're gonna live for me and now I'm gone)

And I'm falling out of love (yea yea yea)

I don't want to put you down (yeah yeah)

Cause you taught me how to love

And like a bee, I need your honey (I need you, I need you)

Cause I'm hungry

You started me

ListenWe need to take some time

And talk about (what's going wrong)

The communication lines are getting weak (they used to be strong)

We gotta get back the time when your eyes used to smile

Every time

Like a pillow on a bed so comfortable

This is an emergency

Can't you see you're losing me[Chorus]

Said the sun is going down (hmm)

And I'm falling out of love

I don't want to put you down (no no)

Cause you taught me how to love

And like a bee, I need your honey (I need you, I need you, I need you)

Cause I'm hungry

You started me

ListenThere's nothing in this world

Means as much to me as you do

Everywhere I go on Earth

In and out of town

Everybody knows (son that you)It's so messed up

I put you before my mother

It's so messed up

I put you before my daughter

It's so messed up

I put you before my son
Now I'm in need
In need of someone[Chorus]
See the sun is going down
And I'm falling out of love
I don't want to put you down
Cause you taught me how to love
And like a bee, I need your honey (I need you, yes I do)
Cause I'm hungry
You started me Said the sun is going down (on me baby)
And I'm falling out of love
(I don't wanna) I don't want to put you down (never want to walk away and leave you girl)
Cause you taught me how to love
And like a bee, I need your honey (I need you, I need you, yes I do)
Cause I'm hungry
You started me
Listen When it's cold outside, baby
I won't be there to keep you warm, lady
I know you're gonna miss me (you're gonna miss my love)
I know you're gonna miss my love (you're gonna miss my time)
Somebody say a prayer for me (you're gonna miss my love)
I know you're gonna miss my love (gonna miss gonna miss gonna miss my love)
Gonna hide summer nights (you're gonna miss my love)
You're gonna miss me (you're gonna miss my love)
I know you're gonna miss my love (gonna miss gonna miss gonna miss my love)[Chorus]
Said the sun is going down (said the sun is going down)
And I'm falling out of love
I don't want to put you down (I don't want to put you down)
Cause you taught me how to love
And like a bee, I need your honey
Cause I'm hungry
You started me Said the sun is going down (yeah)
And I'm falling out of love (I need you)
I don't want to put you down (oh no)
Cause you taught me how to love
And like a bee, I need your honey (I need you yeah)
Cause I'm hungry
You started me[Chorus to fade]
