

All That Really Matters

[Richie Sambora](#)

When I look at you
You're beautiful
There comes a time in someone's life
When you find the things that matter
And every time we touch
The love runs deep
We realize it's ours to keep
And that's all that really matters You'll always be my sweet addiction
In this life my saving grace
You're all that really matters
You know it's true
Ain't no me without you When you're in the dark
Baby don't despair
I'm just a spark away
I will be there
And that's all that really matters You'll always be my sweet addiction
In this life my saving grace
You're all that really matters
You know it's true
Ain't no me without you We'll share our lives together
Yes our flame burns on forever
And at the final curtain call
We can say we did it all You'll always be my sweet addiction
In this life my saving grace
You're all that really matters
You know it's true
Ain't no me without you And when we turn to dust
And we fly away
There'll be a light still burning bright
And that's all that really matters
