

# Magic town

## Eden Kane

They told me the streets were all paved with gold  
But these dirty sidewalks are gray and concrete cold  
They said neon lights were a beautiful sight  
But how 'bout the one blinking in my room all night  
And where's the magic in this magic town?  
Where's the good life they said could be found?  
Where's the magic to make all my big dreams come true  
I gotta find it, girl, before I send for you  
I gotta find it, girl, if it can be found  
Before I bring you to  
(To coda)They said in this town you get rich in no time  
But here I am and I'm down to my last dime  
I just don't know why I bother to try  
When nobody here gives a hang if I live or die
