

Anniversary Song

The Black Family

Today has been a special day
An anniversary, a request
That you play your piano
As the evening sun slowly sets
I never thought I'd get this old dear
Never had a reason to live so long
And the Lord's been like my shadow
Even when I was wrong
No, I never thought it would turn out this way
A birthday with apologies
For all the tears and regrets
And I've always saved your poetry
For these years when you forget
I never thought I'd get this old dear
Never had a reason to live so long
And the Lord's been like my shadow
Even when I was wrong
No, I never thought it would turn out this way
So sing with me softly
As the day turns to night
And later I'll dream of paradise with you
I love you and good night
