

Drinking from a Deeper Well

Blue Highway

Grocery line head lines
All kinds of stop signs
Do it now deadlines
Are bringing me down

My way of living
Is taking no giving
The art of forgiving
Is short in supply

These days I listen
To what I've been missing
Like stories my son wants to tell
Learn how to slow down
Every day I'm above ground
Drinking from a deeper well

Today's all we're living
Tomorrows not given
The riches are hidden
In everyday life

So find your own reason
There'll be a season
Keep on believing
Drink till you're full

These days I listen
To what I've been missing
Like stories my son wants to tell
Learn how to slow down
Every day I'm above ground
Drinking from a deeper well

Sweet inspiration
Simple salvation
Drinking from a deeper well
