# The Eagle Has Landed (Remastered)

## Saxon

Take a giant step for mankind
On a distant lunar sea
As you travel across the universe
Will you take a step, take a step for meWill you take a step for me
Voyage of an eagle
Blasting to the stars
You take the hopes and dreams of menTo find yourself, to find tranquillity
To find tranquillity
Traveled across the universe
And placed the lonely flagOut there in isolation
At the final, the final frontier
At the final frontier
The world's in celebrationAs we wait for your return
You took a giant leap for mankind
On another, on another world
On another worldTake it easy take it slow
Don't go fast don't let go
The eagle has landed
The eagle has landedThe eagle has landed
The eagle has landed
