

# Levitation

## Michna

In the darkness I will shine  
Cast no shadows or define  
Walk on water, float on air

There is no other to compare  
I have this fascination, no cause for deviation  
It's called levitation, levitation, levitation  
There's no cause to start and scream

Nor rub your eyes, this is no dream  
Although I sit upon this chair

I rise and float up in the air  
I have this fascination, no cause for deviation  
It's called levitation, levitation, levitation  
Magnetic force, repel, attract

Once it starts, there's no turning back  
I offer you this chance to learn

Take it now, there's no return  
I have this fascination, no cause for deviation  
It's called levitation, levitation, levitation  
Magnetic force, repel, attract

Once it starts, there's no turning back  
I offer you a chance to learn

Take it now, there's no return  
I have this fascination, no cause for deviation  
It's called levitation, levitation, levitation
