

World Domination

Ash

Gimme gimme, world domination
We are the new sensation
Calling to the whole population
So spread the word across the nation Gonna bring you heart palpitations
Gonna give you excitations
I am a God-like constellation
Gimme gimme, world domination We're here to speak our mind
Won't take up much of your time
We want and we want it now Gimme gimme, world domination
You're gonna feel our sonic vibrations
And our universal mind liberation
Is calling out to your situation There will be no discrimination
Gonna warp your imagination
'Cause you've been under sedation
Gimme gimme, world domination We're here to speak our mind
Won't take up much of your time
We want and we want it
We want and we want it, now
Oh yeah yeah yeah, uh uh
Oh yeah yeah yeah, woo We're here to speak our mind
Won't take up much of your time
We want and we want it now Sorry to rain on your parade
But we're here to stay
Gonna take out anybody that gets in our way You know we don't give a fuck
How we're meant to be
So gimme, gimme, gimme what belongs to me Gimme gimme, world domination
We are the new sensation
Gonna blaze to our annihilation
Interplanetary destination So gimme gimme, world domination
And spread the word across the nation
I am a God-like constellation
Gimme gimme, world domination
